## Sistema

Si tratta di una serie completa di tavoli operativi e contenitori. La linea "sKuba 3" è costituita da una gamma ricca di dimensioni, di forme e di finiture. Il loro impiego può essere apprezzato in molteplici situazioni. Nella realizzazione di scrivanie singole, contrapposte o tavoli riunione. Il sistema "sKuba 3" è concepito per andare oltre; gli elementi e gli accessori disponibili sono i più vari e utili; dalla realizzazione dei divisorii frontali a quelli laterali con una variante cromatica molto ricca, passando dal melaminico, al tessuto, fino al vetro. Il tutto si completa con una serie di accessori come il portafogli, o il portapenne e altri che rappresentano sempre un valido supporto all'organizzazione dell'ufficio. Risulta molto piacevole nella serie il porta pc appeso che può essere completato con una serie di cassetti portaoggetti.

SYSTEM: sKuba range is a new concept of bench desks and cabinets. sKuba line is composed by a huge range of dimensions, shapes, and finishing. ## Struttura

Costituita in lamiera d'acciaio, si propone sulla soluzione a portale con gambe inclinate rispetto alla verticale, arretrate rispetto al punto di contatto con il piano. La configurazione contrapposta utilizza la stessa gamba aggregata a cavalletto più adatta a garantire il sostegno di piani di profondità e luce importante. Il profilo delle gambe è aperto e consente l'incastro di un carter in acciaio utile al transito dei cavi energia. Le scrivanie si completano longitudinalmente con travi in tubolare d'acciaio.

STRUCTURE: made of metal sheet , tilted arc legs in comparison to the vertical and behind in comparison to the top contact point. The bench configuration uses the same kind of leg but deeper to guarantee the right support for the desktop. The inner leg profile is open to allow the insertion of a metal cover to allow wire management. Desks are provided with a metal cross beam.

STRUCTURE: La structure est réalisée par de la tôle d'acier , les pieds sont inclinés par rapport à la verticale et arriérés par rapport au point de contact du plateau. La configuration face à face utilise la même typologie de pied mais plus profond pour garantir le juste support aux plateaux. Le profile interne du pied est ouverte pour l'insertion d'une couverture en métal pour le passage des câbles.

## Tavoli riunione

La struttura costituita da gambe e travi longitudinali offre la possibilità di realizzare tavoli meeting di grandi dimensioni. Un piano unico per la lunghezza di 240 cm e in due piani affiancati per creare le due misure successive 280 - 320 cm (prof. 120). Ciascun piano è preforato per l'uscita dei cavi al piano; questi ultimi consentono il posizionamento di pannelli divisorii (in melaminico o tessuto) utili a ricavare posizioni di lavoro multiple in configurazioni contrapposte.

MEETING TABLES: Structure is composed by legs jointed by cross beams, which allow the realisation of big meeting tables. A single top 240 cm width or two tops side by side to reach 280 or 320 cm width (120 cm depth). Each top has a cable out to allow wire passage and setting the frontal panels (fabric or wood).

TABLE DE REUNION: La structure est compose par des pieds et des poutres longitudinal pour réaliser tables de grand dimension. A seul top de L 240 cm ou deux plateaux accolés pour créer dimensions de 280 ou 320 cm de long (Profondeur de 120 cm). Chaque plateau à des trous pour le passage des câbles et pour la fixation des panneaux frontales (tissu ou bois).
